

Fatima Rafi Lari

UX/UI Designer

Debrecen, Hungary | Fatima.lari07@gmail.com | fatimalari.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

UX/UI designer with a clinical healthcare background and a Google UX Design Professional Certificate. Combines real patient-facing experience with end-to-end design skills across user research, wireframing, prototyping, and usability testing. Turns complex problems into clear, accessible, developer-ready designs. Open to remote and EU-based product design roles.

CORE SKILLS

UX: User research, journey mapping, information architecture, wireframing, prototyping, usability testing, interaction design, accessibility

UI: Visual design, design systems, responsive web design, component libraries, design handoff

Tools: Figma, Framer, WordPress, Stitch, ClickUp, Slack

AI-assisted workflow: Figma AI, Figma Make, ChatGPT, Claude, Gemini

PROFESSIONAL EXPERIENCE

Product & Brand Designer, HNZ TEK (Remote)

Oct 2026 - Present

Lahore, Pakistan

- Define product direction and maintain the roadmap, prioritising features based on user needs and business goals.
- Write product requirements and feature specs, and work with designers and developers from discovery through to release.
- Gather user feedback and market research to identify problems worth solving and shape upcoming features.
- Own the brand identity and guidelines, keeping visuals, tone, and messaging consistent across the product, website, and marketing channels.
- Track product and campaign performance and use the results to guide improvements.

UX/UI Designer, Araft (Remote)

Jun 2025 – Sept 2026

Islamabad, Karachi

- Design end-to-end web and product interfaces, taking projects from research and wireframes through to high-fidelity, responsive designs.
- Build and maintain reusable component libraries and design systems to keep work consistent and speed up delivery.
- Run usability reviews and iterate on designs from feedback, balancing user needs with business and technical constraints.
- Collaborate with developers on handoff, producing clear specs and assets for accurate implementation.
